**MARINE JOURNEY**  

## WELLBEING, SUN & OCEAN

The Euronat thalasso invites you to a friendly, relaxing setting where the natural environment takes pride of place. Its team of professionals is always ready to listen and offer you a whole range of quality treatments.

Sea water remineralization is essential for a healthy body, to promote nervous balance, good bone mass and restore a healthy immune system.

The seawater is heated to a temperature of 35-38° and, by osmosis, all the active elements it contains are absorbed into your skin, giving you a new lease of life.

# HYDROTHERAPY TREATMENTS

SEAWEED WRAPS remain the thalasso's flagship treatment, with each wrap accompanied by sea mud or carried out on a floatation bed.

THE SEAWEED WRAP is remineralising, relaxing and has a boosting effect on the immune system.

THE SPIRULINA WRAP softens the skin and protects it with vitamins A, E and silicium.

THE DETOX BODY WRAP (Wakame, Goji and Green Tea) eliminates impurities from the skin's surface and has an anti-oxidant effect, revitalising the skin.

THE MARINE MAGNESIUM and KAOLIN BODY WRAP is anti-stress and helps eliminate toxins.

THE COTTON AND ALOE VERA WRAP is soothing and moisturising.

THE PRECIOUS BODY WRAP followed by a bath has a highly nourishing effect on the skin thanks to Shea Butter and beeswax, while brown algae stimulate and energise the skin.
